Cahuenga Valley Lands.

4 1-2 MILES FROM THE COURTHOUSE.

All persons seeking homes are invited to examine the delightful situation, soil and advantages of the magnificent land which we are offering

IN SMALL TRACTS

Of 5, 10, 15, 20 and 40 acres, at the very reasonable price of

$125 Per Acre,

Equal in nearly all respects to the land for which, in many places, we are compelled to ask $200 to $250 per acre.

This property has the great advantage of being

FREE FROM FROSTS, STORMS OR FOGS,

And there is not an inch of waste land on the tract, which is LEVEL AS A FLOOR. Schools are within ½ mile, and the entire property lies on the GREAT THOROUGHFARE, between the city and the whole of the fertile Cahuenga Valley.

When watermelons grow here to 108 pounds and pumpkins to 195 pounds we need say no more.

Apples, peaches, pears, etc., grow to the utmost perfection.

Water is found in unlimited quantities near the surface, 12 to 30 feet.

Let us show you this splendid property before you buy elsewhere.

NEWS IN BRIEF.

The ice gorge in the Snake river broke yesterday morning and the river rose twenty feet. The overflow will delay transportation from that section.

The French and African International Association has finally effected an agreement.

Cleveland held a reception at New York yesterday.

The French Chamber of Deputies refused an urgency on Tony Revilton's motion for 25,000,000 francs for distribution among the towns of France owing to the dearth of employment.

Edward Arnol, an actor, at one time leading man at Wallack's and Union Square theaters, New York, committed suicide at Chicago last night by cutting his throat with a razor.

Over $8,000 changed hands on the result of a cocking main between New York and Long Island last night. Long Island won.

THE Prince of Wales got "shook up" on a railroad train yesterday. He is now in the same state of mind and stomach as his native country.

O'DONOVAN ROSSA'S avenging angel has found her tongue, and with it has been lashing the dynamiter right hard. The avenger is a woman.

MRS. DUDLEY offers to make up a shooting-bee if O'Dynamite Rossa will "go snucks." She is positive she can polish him off with a pistol quicker than you can say Ivan Robinsonovitch.

REPUBLICANS from one end of the country to the other will be rejoiced to know that General Logan is the Illinois Republican caucus nominee for United States Senator. Standing together, the Republican legislators can win the fight, or wear the enemy out.

THE United States authorities in Utah, acting under the Edmunds bill, appear to be closing in on the polygamous Mormons with effective energy, such as has not been witnessed before in that besotted territory, where the "twin relic of barbarism" still lifts its hydra head.

THE TIMES of next Sunday will contain the first of a series of articles entitled "Mormonism Reviewed," by Miss Kate Field, who spent weeks in Salt Lake City studying the question. These articles have been copyrighted by the author, and the TIMES is the only paper on the Pacific coast which has purchased the right to publish them.

THE capture of Khartoum by the Mahdi's army is the sensation of the hour in Europe. Intense excitment prevails in England over the disaster, and the Government is moving with energy to reinforce its Egyptian army and repair the loss sustained on the Nile. General Gordon's disappearance and unknown whereabouts add to the general anxiety, it being uncertain whether he is dead or alive.

The capture of Khartoum appears to have been accomplished in a very clever manner. The Mahdi, investing the city with an enormous army, said to number 60,000 men, succeeded in introducing his emissaries into the place, where they got in their work effectually, mingling with the native troops under Gordon, and by bribes, threats, and appeals to religious prejudice, seducing them from their adopted standard and inciting them to mutiny. The defection of the native contingent left Gordon with only a handful of faithful troops, and, after a hard fight, attempting to maintain his position, he was compelled to surrender. The so-called "False Prophet" has in this achievement given evidence that he possesses the qualities of a skillful commander. He has exhibited constancy and sleepless vigilance. He has literally camped on the trail of the foe, and made a living cordon about the beleaguered British garrison. The surmise that Gordon had weakened his force in Khartoum, by sending out a detachment to meet Stewart's column in the neighborhood of Metemneh, looks reasonable in the light of the news received. Here, again, the native leader showed the quality of an alert and decisive commander. He waited not, but appears to have struck quick and hard in the nick of time, and with decisive results.

This disaster may well alarm England and raise serious doubts as to the safety of the entire British position in the Soudan. General Stewart's position near Metemneh (which is still in the hands of the Arabs) is in evident peril, as, with Gordon's army destroyed and Khartoum in the hands of the "rebels," it is entirely within the bounds of military possibility for the Mahdi, with the large force at his command, to speedily send an army against Stewart's little band large enough to crush, capture or drive it from the country.

The exultant gladness which thrilled all England, a few days ago, over the news of Stewart's brilliant victory has been suddenly succeeded by sadness, alarm and dread for the future.

It is, of course, hardly to be supposed that the British government will fail to ultimately recover the ground lost, but it can only be done by the expenditure of yet more blood and treasure, for the fanatical followers of the Mahdi will be fired with fresh zeal and added courage by the important victory which they have won at Khartoum. Britain has business before her.

The latest news from the scene of the siege contains a variety of conflicting rumors as to the actual state of things in Khartoum, but there is hardly room for any doubt about the result. The army of Gordon has been "scooped."

AMUSEMENTS.

GRAND OPERA HOUSE.—As the operatic season draws to a close the popularity of Miss Abbott's company seems to increase. The audience that assembled at the Grand Opera House last evening was the largest yet. The number of ladies, too, was greater than on the former nights, and orchestra and dress circle fairly blazed with their elegant toilets. The opera of the evening, *Mignon*, is an especially popular one, abounding in delightful music and wholly free in plot and dialogue from every objectionable feature. It was admirably produced, and well received. Miss Abbott in the title *role* sang charmingly and acted the part in a highly realistic manner. Her "Mignon" has at times a spice of piquancy and sauciness absolutely refreshing. Miss Bellini, too, was in fine voice and her assumption of the *role* of coquettish "Felina" was excellent. Miss Annandale added a few modern dudisms to the conventional "Frederick" and was admirable throughout. In "Wilhelm Meister" Mr. Castle had an opportunity to display his really fine voice with good effect, and the "Lotadrio" of Mr. Broderick was excellent. The other members of the company and the chorus also showed to good advantage. To-night *Heart and Hand* will be given, and in addition selections from *Faust* will be sung. At the matinee to-morrow *King for a Day* will be sung, and the engagement will close to-morrow evening with the popular *Il Trovatore* with a strong cast.

Khartoum Captured by El Mahdi's Army.

TREACHERY THE CAUSE

The Garrison Corrupted by Emissaries of the Pretended Prophet.

GEN. GORDON'S FATE IN DOUBT.

Fears that Stewart Will be the Next Victim of the Arabs' Fury—England Alarmed.

Associated Press Dispatches to The Times.

LONDON, Feb. 5.—At 10 o'clock this morning news was received in this city that the Arabs have captured Khartoum The whereabouts of General Gordon is not known. The War Office has received a dispatch from General Wolseley in which he says that the fall of Khartoum took place on January 26th. Col. Wilson arrived at Khartoum on January 28th, and was greatly surprised to find the enemy in possession of that place. He immediately started on his return down the river and proceeded under heavy fire from the rebels. When some miles below the Shubloka cataract his steamers were wrecked, but he and his whole party managed to reach an island safely, where they are secure. A steamer has gone to bring them back to the British camp, near Metemneh. Wolseley has no information regarding the fate of Gordon and does not know whether he is dead or alive. He is thought to be a prisoner in the hands of the Arabs.

ANXIOUS TO VOLUNTEER.

The War Office is besieged with army officers tendering their services for active duty. In London numerous telegrams are being received from officers throughout the country, asking assignments to rescue expeditions should the Government conclude to take such action. A number of military officers of repute express the opinion that unless reinforcements are hurried forward to Khartoum the fall of Khartoum may lead to a disaster to the forces under Wolseley and General Earl.

TREACHERY AT KHARTOUM.

The natives report that the Mahdi has 60,000 men in the vicinity of Khartoum, and that he had introduced a number of his emissaries into the city. These emissaries mingled freely with the native troops under Gordon, and by bribes, threats, and working on their religious feelings, induced them to mutiny. Seven thousand of the garrison deserted to the rebels, leaving Gordon only 2500 faithful soldiers. With this small force he attempted to hold the city against the Mahdi's great army, but after severe fighting, in which large numbers of rebels were killed, he was compelled to surrender.

ENGLAND ALARMED.

The news of the downfall of Khartoum has created apprehension in regard to the whole Egyptian problem among members of the Cabinet. Gladstone and Earl Granville started for London as soon as the news reached them. Military authorities are of the opinion that Gordon sent the greater part of his troops down the Nile to meet Stewart's forces and so depleted the garrison in the town and citidal of Khartoum that an attack by the enemy from Omdurman rendered it much easier of capture. The greatest activity prevails at the War Department.

LONDON, Feb. 5.—On the Stock Exchange to-day Egyptian stocks dropped 1¼ to 2 per cent. on account of the disaster in the Soudan. Sales were pressed. The excitement attending the reception of the news of the fall of Khartoum is increasing. A constant stream of anxious inquirers, including Sir William Vernon Harcourt, George Otto Trevelyan and other ministers, is pouring into the War Office. The people throughout the provinces are also greatly excited. At Allersbot the news was received with mingled feelings of sadness and indignation. A great sensation was caused in the Irish garrisons at Dublin when the report was received. It is understood that the fall of Khartoum will not check the advance of General Wolseley, whose main body of troops will probably march across the desert at once and besiege Khartoum at the earliest possible moment.

LATER DISPATCHES.

A Reassuring Dispatch from Wolseley—Col. Wilson's Expedition.

LONDON, Feb. 5.—General Wolseley telegraphs that he does not consider the British position at Gubat in any immediate danger.

LONDON, Feb. 5.—The Arabs still hold Metemneh. The garrison there received the news of the fall of Khartoum with repeated salvos of artillery. When Colonel Wilson's flotilla approached Khartoum it was compelled to run the gauntlet of a heavy fire from both banks of the river. The rebels have four Krupp guns on the river banks at Halpujeh, to bombard the steamers. When the British forces reached Omdurman numbers of the rebels continued the fusillade. Things looked worse when it was discovered that the enemy was in possession of the Island of Tutti, just outside the city. The English still pushed on, but were dismayed to find that the garrison commenced firing upon them. No flags were flying from the public buildings and Khartoum appeared in undisputed possession of the enemy. The palace seemed gutted. Finding it impossible to land in the face of the overwhelming numbers of rebels, the British were obliged to retire. Rumors concerning the fate of General Gordon are many and varied, but all agree that the Mahdi captured Khartoum by treachery. The most reliable reports point to one Faraz Pasha as the traitor. It is said that he, being left in charge of the ramparts, opened the gates January 26th and admitted the enemy. Some rumors state that the Mahdi, together with a few Levantines, is cooped up in a church. Others say that General Gordon was seen wearing the Mahdi's uniform. The majority agree, however, that General Gordon was killed.

LONDON, Feb. 5.—The first news of the fall of Khartoum received by General Wolseley, was brought by a messenger, who left the island where Colonel Wilson was stranded and came on foot to Gubat. Two messengers, dispatched to Korti via Abu Klea and Ghadul, reached their destination, which is regarded as owing to the news of Khartoum's fall not being known in the desert. Intelligence of the disaster, however, has since spread far and wide. Some tribes that hitherto professed friendship for England have declared for the Mahdi.

PREPARING FOR VIGOROUS MEASURES.

LONDON, Feb. 5.—There was a council at the War Office this afternoon, and it was decided to advise the sending of 3000 troops to Suakim immediately. General Stephenson telegraphs that 5000 men will be needed to clear the road to Berber, as the news of the fall of Khartoum will induce the central tribes to join Osman Digna. General Stephenson also advises that the present strength of the troops in Upper and Lower Egypt be maintained and reinforcements be drawn from England and India. General Wolseley renewed his demand for an expedition to Suakim of 3000 men under General Greaves. The Cabinet ministers held an informal meeting to-night, but took no definite action. Nothing will be decided upon till the Cabinet council to-morrow. It is reported that General Wolseley commenced the advance from Korti to-day for relief of the troops near Metemneh and that he sent orders to General Earle to hasten his advance against Berber in order to assist in the relief of Metemneh. The objective point of all General Wolseley's movements is now Metemneh. The press messages from the Soudan are greatly retarded. Several newspapers made aplication to the War Office for permits to communicate instructions to their correspondents, but have all received the reply that General Wolseley is sole authority in the matter. The Liberal and Conservative papers generally say that the sole responsibility for the fall of Khartoum rests with the Ministry, who refused to allow the relief expedition to start in time. The Conservatives intend to raise a question of confidence in the Ministry as soon as Parliament reassembles.

A TRIBUTE AS TO GORDON.

LONDON, Feb. 5.—It is considered that Indian and even Turkish co-operation is imperative at the present juncture. Sir Henry Gordon, brother of Chinese Gordon, says he is of the opinion that the Mahdi's regulars who submitted to Gordon in December mutinied and betrayed the garrison. Gordon's great fault was in placing too much confidence in his men. Unless the mutineers murdered him in the first step of their rebellion, he has no fears for the General's safety, which would be simply a matter of money.

LONDON, Feb. 5.—Gladstone arrived at London yesterday. His health is good.

A SAD ANNIVERSARY.

CAIRO, Feb. 5.—General Gordon's defense of Khartoum ended on the anniversary of his fifty-second birthday. The military opinion in Cairo is that the whole force of the British army should be directed toward the capture of Berber, while 15,000 reinforcements from England or India should land at Suakim to insure a retreat or enable them to chastise the rebels.

FITTING OUT TROOP SHIPS.

LONDON, Feb. 5.—It is stated that Commander Cameron, the African traveller, has offered to start immediately for the Soudan to assist the British in the campaign against the rebels. Orders have been sent to Portsmouth to begin fitting the troop ships.

ENLARGED SHEET.

FRIDAY, FEBRUARY 6, 1885.

THE San Francisco Chronicle remarks on the subject of legislative speech-making: "It is rather a melancholy sight to see a member of the California Legislature arise to address the Senate or the House with a carefully prepared speech. As soon as the reporters realize that he is in for a set speech they gently file out of the hall. The fellow-members of the speaker follow the example, or begin to write letters or read newspapers. After awhile there is but one apparent listener on the floor and that is the Speaker or President, who is half asleep. A Senator who can make a capital speech observed of one of his best efforts at the extra session that he did not think one single person had heard it. The only chance for orators who want to make a name is to get their speeches reported and published. Even after a speech is reported it is not easy to find a paper of any circulation which can afford space to publish it."

This is eminently true. There are few speeches delivered on any subject, anywhere, which will justify reproduction *in extenso* in a journal which gives the first consideration to news and facts, and places mere opinions lower down in the list of desirable matters to print. The era of oratory will probably never go out, and ought to survive; but the modern newspaper, speaking with a thousand tongues where the orator has but one, is the great spokesman to reach the minds of men. It is the people's forum in the larger sense, and has a power for good or evil which may never be told, and which it is criminal to abuse.

In view of the prevailing hard times among traveling theatrical and operatic troupes, it is becoming very evident that high prices will have to undergo a tumble. Sagacious managers begin to see what is coming, and are preparing to meet the public demand. We learn that one opera house in Ohio is running a series of popular performances at the low admission of ten, fifteen and twenty cents, with crowded houses day and evening. The lessees are making money. In England there is a formidable rebellion against what the thrifty Britons consider the extortionate prices demanded by the producers of grand opera, and it is given out that "something has got to be done,"—either a material reduction of prices or the formation of a syndicate of leading prima donnas for mutual self-protection.

How much better off would be the public and business men of the country if they would only follow the example of the English Premier, who says: "I never allow business of any kind to enter my chamber door. In all my political life I have never been kept awake five minutes by any debate in Parliament." If this example were followed by men in public and business life generally, the the strain from the pressure of overwork and anxiety about their everyday duties would be vastly lessened, and premature old age and the sudden snap of the vital forces would not be experiences of such frequent occurrence.

THE TIMES has to ask the indulgence of numerous correspondents whose favors have not yet appeared in its columns because of their crowded state. We have on hand matter which would fill a score of columns, some of which, referring to recent local events which have been disposed of, is no longer timely, and is therefore respectfully declined. Other contributions we are under the necessity of curtailing in order to bring them within our available space.

THE lordly John Bull roars and bellows in his imagined superiority over his transatlantic cousins, and it may be a matter of surprise to him to know that in the United States there are published twelve times as many daily newspapers as in the United Kingdom. In this country we have one daily paper to every 10,000 inhabitants, while the English have but one to every 120,000. Truly this great Yankee nation is a thinking, busy, reading people.

How a cold wave acts was told by a signal officer in Washington to a Star reporter on the 29th ult.: "The cold wave has come and gone. The crest of the wave passed over us between midnight and daylight this morning, lowering the temperature within ten degrees of zero, a drop of exactly twenty degrees from the maximum to the minimum. On the coast there was a drop of thirty degrees."

LABOUCHERE says: "The name of the man at the bottom of the dynamite outrages is McCafferty." "How he knows," he says, "is no matter, but he knows." Will Labouchere please tell us whether he is our John McCafferty, late of the Arizona Legislature, or some other fellow of the same name?—[Arizona Citizen.

M. Labouchere, being a man who loves the truth, takes the Los Angeles TIMES. That's the way he knows.

THERE is announced to come off at the White House, on the 4th of March, a formal reception, to be given by the President, especially "for the Democ—," and we have the authority of George Hearst's Examinerfor the assistant statement that said reception is a "snorter." Ex-Senator Thurman will be there, of course.

Dr. M. E. Wadsworth finds that the assumption that the earth has "a heterogeneous, viscid, elastic, liquid interior, irregularly interlocked with and gradually passing into a lighter heterogeneous crust," accords better with geological facts than any other of the various hypotheses thus far advanced. Combustions and upheavals of the crust, resembling in their effects what is sometimes seen in ice, would satisfactorily explain volcanic and earthquake phenomena.

ONLY 49,500 POSTOFFICES TO FILL.

The Monument to Mr. Washington—Col. Susan B.—A Grist of Personals—Two Thrifty Illinois Dromios.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

WASHINGTON, D. C., Jan. 26.—There are about 50,000 postoffices in this country, 2,500 of which are Presidential offices, leaving 49,500 postoffices for the next Postmaster General to fill. There are also 410 members of Congress (including Senators), making an average of 127 postoffices to each Congressional representative. For each office there will be an average of at least ten applicants, or 1270 for each Congressman. Wha a circus is in store for the next Postmaster General!

There is considerable talk about changing the date for the dedication of the Washington monument from February 21 to a later day. It is said that inasmuch as such large crowds are coming to the inauguration, it would accommodate a great many more people if the date of the dedication were postponed. As the dedicatory ceremonies will not be held on Washington's birthday anyway, there is really no objection to the postponement.

The clerks of the Dead Letter office, under Major Dallas, have finished the work of classifying the articles that are to be auctioned off this week. Owing to the fact that unmailable matter multiplies so rapidly, it has been found necessary to hold annual sales, while hitherto they took place only every four years. The articles this year number over twelve thousand, made up into 3,276 lots.

The clerks in the office of the Second Assistant Postmaster-General are engaged opening, examining and recording about 50,000 bids for service on star routes in all the States and Territories, preparatory to the spring letings.

Susan B. Anthony, Vice-President of the National Woman Suffrage Association, has just completed a lecturing tour in Ohio, and is stopping at the Riggs House, where she will remain during the annual Equal Rights Convention. The bill pending in the United States Senate asking for a sixteenth amendment will come up for discussion soon, and it is expected the friends and foes of the question of granting franchise to women will come out in full force.

The President has abandoned all idea of visiting the New Orleans Exposition in an official capacity, and has so informed the board of managers. He expects, however, to make a short visit to the exposition after the 4th of March, and then, he will go as a private citizen with his new wife. He had hoped to attend the exposition during the month of February, and had consequently refrained from extending his exagements into that month. He feels now, however, that the increased pressure of official business, and the short time remaining in which he must close up the affairs of his Administration, will render it impossible for him to leave Washington for any length of time during the next six weeks.

The hops at the National Hotel begin this week with the return of Mrs. Chamberlain from New York. There is a bevy of pretty girls at this house, among them being Miss Tully, daughter of the Representative from California.

Miss Dora Miller, daughter of the Senator from California, will give a fancy-dress ball the end of this month, and already young society is picking out costumes.

The residence to be erected by Mrs. Anastasia Patten, of San Francisco, corner Massachusetts avenue and Twenty-second street, will be one of the finest in the city. It will be constructed by Mr. Robert Fleming. Mrs. Patten paid $60,000 for her site.

The ladies at the Hamilton House, including Mrs. Glasscock and others, received together last Tuesday, and had numerous visitors.

Mrs. Speaker Carlisle was assisted in receiving on Wednesday by Mrs. Representative Glasscock.

The Misses Patten, of San Francisco, received in their parlors at the Arlington on Tuesday.

Miss Laura Bethell, of San Francisco, and Miss May Bethell, of Indiana, are visiting their cousin, Mrs. L. S. Porter, *nee* Bethell, on Massachusetts avenue northeast. A pleasant company was invited to meet them last Thursday evening by Mr. and Mrs. Porter.

A Couple of Thrifty Dromios, Etc.

WASHINGTON, D. C., Jan. 31.—Among the changes in political life which are foreshadowed by the incoming administration is one of more than ordinary interest. Judge Joslyn, First Assistant Secretary of the Interior, an ardent Republican, will retire with the Arthur engine, and it is deemed probable that his brother, Colonel Joslyn, a life-long Democrat, will be appointed to the vacancy. Both are from Illinois, where they have been somewhat prominent in their respective parties. Fraternal affection is exemplified in the reciprocal action of the two gentlemen, for while the Judge in Washington is smoothing for the Bourbon brother the pathway which leads to the Assistant Secretaryship under President Cleveland, the Colonel is setting up the pins for the stalwart relative to gain the Judgeship of the Appellate Court out in Illinois, which is an elective office in a strong Republican district. Thus are the vicissitudes of politics turned to profitable account by the two dromios of the Sucker State.

An Eastern member said to-day that the "cattle trail" bill could never pass Congress. It would take 5,750,000 acres from the public domain and dedicate it to the cowboys.

John Davis, just appointed to the court of claims bench, is a slight, pale-faced, boyish appearing man and is as much a favorite with the ladies as his wife, formerly Miss Frelinghuysen, is a favorite of President Arthur.

The "Advisory Board" has declared that Mr. Cleveland's cabinet will be wholly Democratic.

Leading Democrats in Congress are reported as being opposed to any action on the Spanish or any other reciprocity treaties at the present session, on the ground that they are new measures, which require more time than can be devoted to them, and that they might embarrass the new administration in its financial and tariff policy.

The President-elect is a very handsome man, to whom the campaign pictures totally fail to do justice. This will be pleasant news to the ladies, sundry of whom have not reflected that a bachelor President is an eligible subject for feminine speculation in the line of Dame Cupid's achieyements.

Senator Sherman says the Senate will treat Mr. Cleveland with perfect fairness and confirm his appointments made in pursuance of the law and custom.

Cupid and Hymen have conspired of late to decrease the number of female clerks in the departments. Resignation of office precedes marriage.

President Arthur and Secretary Frelinghuysen must make up their minds to see the Spanish treaty fail of ratification in the Senate. The Republican Senators talk freely against it. A large number of the Democratic Senators are equally opposed to it, and it is doubted if it will get a majority of the Senate when the vote is taken.

A Paradise for Homes!

An opportunity not equaled in Southern California to secure ten or more acres of the choicest land in Los Angeles county, with water right, is now offered to the public at prices, to those desiring to improve, fully forty per cent. lower than land similarly located.

THE PHILLIPS TRACT,

Of two thousand acres, all the finest sandy loam soil. Climate unsurpassed and location specially adapted to the orange and lemon; also elegant for vineyards. The character of the soil is such that all kinds of deciduous fruits and vines grow luxuriantly without irrigation. This fine body of land must be seen to be appreciated. It is located

Five Miles from Puente Station,

On the Southern Pacific Railroad, and eight miles west of Pomona, in a lovely, healthful valley, sheltered by the lofty Sierra Madres on the north, gently sloping south and west, and entirely free from fogs and frosts. This fine body of land has recently been subdivided by the owner and placed on the market by the undersigned in

LOTS OF TEN ACRES EACH,

at prices ranging from sixty-five to eighty dollars per acre, including ten shares of water stock with each ten acres. The terms will be made reasonable to parties purchasing and improving. There has already been twenty ten-acre lots sold. There has also been

A Town Located on the Land,

Named "COVINA," and quite a number of lots already sold. The price for lots, 60x175, at present being fifty dollars. A good school has been established on the tract. Parties desiring to see this land can be provided with conveyance from Puente Station. Broad avenues are laid out through the tract. This will undoubtedly become one of the most attractive places for homes to be found. In point of climate or soil it has no superior. For maps, prices, and full particulars, call on or address

By Telegraph to The Times.

NEW YORK, Feb. 5.—Governments active quiet. Stocks opened strong this morning and further material advances made for some most active stocks, notably Western Union, Northwestern, Lackawana and Manahattan elevated. Prices continued firm until about 5 o'clock, when leading bulls called a halt, and thus checked the rise to comply with earnest demands of prominent operators that a moderate reduction should be permitted to take place. This caused an average decline during the last hour of about one per cent. Business less active to-day, especially near the close.

San Francisco Market Report.

SAN FRANCISCO, Wednesday, Feb. 4.

WHEAT—There were indications of an improved feeling this morning. Exporters gave more attention to exhibits on change, and were disposed to advance a trifle on the bidding figure of the past two days. Still the response on the part of sellers is not of a generous character. Holders are unwilling to accept the offered rate of $1 27½@$1 28¾ ₩ ctl for stock that will grade as No 1 standard, so that transactions at the moment are quite limited.

BARLEY—In feed descriptions there is no new feature of interest. Offerings are not large, though buyers are able to fill all needs without any trouble. Prices are not buoyant, though a strictly No. 1 article will bring top figures. Quotations range from $7 8c to 90c ₩ ctl for the better grades, while a less choice article sells at 80@85c ₩ ctl. Brewing still presents more or less irregularity in value, ranging from 97½c to $1 10 ₩ ctl.

CORN—No activity prevails. Quotable at $1 13½@$1 75 for large Yellow; small Yellow, $1 15@$1 20; White, $1 10@$1 15 ₩ ctl. Poor lots are quotable at 90c@$1 05 ₩ ctl.

SEEDS—We quote: Mustard, $3 25@$3 for Brown and $2@$3 25 for Yellow; Canary, 4@4¼c; Hemp, 3¼@3½c; Rape, 2½@3c; Timothy, 5½@6c; Alfalfa, 15c ₩ lb; Flax, $2 25@$2 50 ₩ ctl.

HAY—We quote: Alfalfa, $8@$11; Wheat, $10@$14; Oat, $8@$12; Barley, $7@$11; Mixed, $7@$9 ₩ ton.

POTATOES—Wharf rates are: Early Rose, 70@80c ₩ ctl; River Reds, 60@70c; Petalumas, 90c@$1 10; Garnet Chile, 75@85; Peerless, 75@$1 20 ₩ ctl; Humboldt Kidneys, $1 10@$1 20; Red, $1@$1 10 ₩ ctl; Peachblows, $1@$1 10 ₩ ctl.

ONIONS—Desirable parcels sold this morning from $2@$2 35 ₩ ctl. Inferior lots go as low as $1 50 ₩ ctl.

BEANS—Bayos, $2 50@$3; Butter, $1@$1 35; Pink, $1 60@$1 65; Red, $2 25@$2 37½; Limas, $1 75@$1 85; small White, $1 20@$1 50; Pea, $1 60@$1 75 ₩ ctl.

VEGETABLES—Heavier receipts of Asparagus cause lower asking prices. Nine boxes arrived to-day, selling from 15c@25c ₩ lb, according to quality. Mushrooms sell slowly. Business is, as a rule, rather dull. We quote: Mushrooms, 5@15c ₩ lb; Tomatoes, 75c@$1 50 ₩ box; Turnips, 80@90c ₩ ctl; beets, 40@90c ₩ ctl; Cauliflower, 50@75c ₩ dozen; Cabbage, 50@60c ₩ ctl; Garlic, 6@8c ₩ lb; Celery, 50c ₩ dozen; Dried Peppers, 12@15c ₩ lb; Green Okra, 15@30c ₩ lb; Green Peas, 6@7c ₩ lb; Dried Okra, 15@30c ₩ lb.

FRUIT—There is nothing of interest to remark. The supply of Oranges continues liberal, and consumers have prices still in their favor. Apples, 35@75c for common, and $1@$1 50 box for good to choice; Lemons, Malaga, $4 50; do, Sicily, $5@$5 50; do California, 75@$1 25 ₩ box for ordinary, and $1 25@$1 50 for Sicily and Messina Lemons. Figs, 12@12½c; California do, 75c@$1 25; Oranges, California, 85c@$1 ₩ box for common, $1 50@$1 75 for Riverside, and $2 25@2 75 for Navel.

DRIED FRUIT—Sun-dried Apples, 2½@3c ₩ lb for sliced and 2@2½c for quartered; Alden and Plummer, 4c; Apricots, 9c; Blackberries, 9c; Figs, 4c for pressed and 2c for unpressed; Smyrna do, 15c for layers and 11½c to 12½c for kegs; Nectarines, 9c; Peaches, 14@15c for peeled and 7@8c for unpeeled; Pears, 4c for whole and 8@4c for sliced; machine dried, 3c; Plums, 7½c for pitted and 1½c for unpitted; German Prunes, 5c; French Prunes, 6@6½c ₩ lb; Raisins, new crop Layers, $1 75@$2; loose Muscatelle, $1 80 ₩ box.

NUTS—We quote: California Almonds, 10c for soft and 6@8c for hard-shell; California Walnuts, 7½@8c; Peanuts, 4@5c; Hickory Nuts, 7c@9c; Filberts, 14c; Pecans, 12c; Brazil Nuts, 10c; Italian Chestnuts, 15@17½c ₩ lb; Cocoanuts, $5@5 50 ₩ hundred.

HONEY—We quote: Comb, 7@8c; Extracted, 4@5c ₩ lb.

BEESWAX—Quotable at 24@26c ₩ lb.

BUTTER—The tone of the market is of easy character. Stocks large. We quote: Fancy, 27c; choice, 26c; fair to good, 24@25c; ordinary, 20@22½c; mixed store shipments, dull at 19½@17½c; pickled roll, good to choice, 20@22½c; firkin, 18@20c for good to choice, and 15@16c for ordinary to fair; Eastern, 19@21c ₩ lb.

Market Review.

There is a slight improvement noticed in Wheat, although prices have not materially Barley and corn remain unchanged, although owners of the former accord look for a speedy improvement. Hay is stationary at our quotations. There is a better demand for Potatoes and prices are advancing. Dealers are paying farmers for a choice article $1.25 a cental. Butter is unsteady with a tendency to decline. Dealers offer fifty cents per roll for a good article from first hands. Eggs are declining, choice Los Angeles being twenty cents per dozen. Poultry are lower. Oranges are in good supply with but little demand. Raisins are steady at current rates. Honey is stationary.

BANNING COLONY.

LOCATION:

Banning, San Bernardino County, California, on

Line of Southern Pacific Railroad, miles directly East of Los Angeles.

Railroad running directly through center of tract.

ALTITUDE:

2500 feet above sea level.

WATER:

Absolutely pure, clear and soft, and abundance of it.

ATMOSPHERE:

As near perfect as can be found on the globe.

SOIL.

Rich, deep and adapted to the production of the peach, apricot, pear, apple, nectarine, plum, prune, raspberry, blackberry, strawberry, gooseberry, cherry, and the entire grape family, both raisin and wine.

Depot, express and postoffices, store, meat market, good school, fine Union church and the best country hotel on the Pacific coast.

The above are some of the many advantages this colony possesses, and the managers are all reliable business men, and now offer land in this colony for sale to actual settlers, and to those from California seeking new homes, as well as to those already in the State. We say come and examine land and water, and we will guarantee satisfaction. Stop at the Bryant House and ask for the manager of the Banning Land Company. For terms, etc., address,

Dr. Kellogg

—THE—

CELEBRATED & WORLD-RENOWNED

MAGNETIC HEALER,

From New York city, is now at the Pico House, and will remain there for a limited time, curing and healing the various complicated diseases to which the human frame is heir.

Dr. Kellogg has a world-wide reputation for his extraordinary cures of difficult and chronic cases.

He is the miracle of all mortal marvels, and one of the greatest wonders of the Nineteenth century, performing cures which equal, if not surpass, the old time miracles, causing the blind to see, the deaf to hear and the lame to walk.

CONSULTATION FREE, and one hour each day will be devoted expressly to the poor of this city, or those who are unable to procure their own medicine. They will be treated free of charge. The Doctor gives away more medicine than half the others sell. Consultations at office or by mail, free and invited. A friendly talk or opinion costs nothing. When inconvenient to visit the city for treatment, medicines sent by mail or express everywhere, securely packed, free from observation. Curable cases guaranteed; where doubt exists it is frankly stated. Hours 8 a. m. to 8 p. m. Sundays, 12 to 3.

Nervous Prostration, Debility, Mental and Physical Weakness, Mercurial and other Affections of Throat, Skin and Bones, Blood Impurities and Blood Poisoning, Skin Affections, Old Sores and Ulcers, Impediments to Marriage, Stunted Development, Rheumatism, Malaria. Especial attention to complicated, Difficult, severe and SURGICAL cases. Piles cured WITHOUT USING KNIFE.

Diseases from indiscretion, excess, exposure or indulgence, producing some of the following effects: Nervousness, Debility, Dimness of Sight, Perverted Vision, Defective Memory, Pimples on the Face, Aversion to Society of Females, Want of Pleasure in Life, Want of Ambition, Unfitness to Marry, Melancholy, Dyspepsia, Headache, Restlessness, Loss of Spirits, Pains in the Back, etc., are treated with unparalleled success, safely, privately.

Catarrh, Throat, Nose, Lung Diseases and ASTHMA. Liver Complaints.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

Cancer Cured without pain and speedily. No cutting done.

Tapeworm removed or no charge. Many persons suffer greatly from the effects of tapeworm who doctor for Dyspepsia, Indigestion, Nervous Prostration, Palpitation of the Heart and a Dry Cough, in consequence of the parasite irritating the throat.

THE SYMPTOMS OF TAPEWORM

Are characterized by restlessness at night, sickness of the stomach, vomiting, convulsions, epileptic fits, faintness, stupor, loss of memory, gnawing sensation in the stomach, pains in the side and back, dry cough, a voracious appetite at one time and a loathing of food at another, a choking sensation when lying down, disagreeable breath, face flushed, nose contracted, heaviness of the eyes, bad digestion, stomach bloated at times, emaciation of the body and great nervous debility and dizziness of the head. Some persons may have all the above symptoms while others only have a part of them, and some will have a tapeworm for a long time, and yet never pass any joints or pieces, which is the only positive evidence of its existence. During a residence of eight years in New York city he

Cured Over 6000 Patients,

A large portion of whom had previously been given over by ordinary practitioners as incurable. His system of treatment is peculiar to himself; by it the vital forces become equalized; no pain is caused; no poisonous medicine given, and no surgical operation performed. The most hopeless cases taken and cured after all else has failed.

CONSULTATION FREE.

Can take a tapeworm in two hours complete. Will prove to you, free of charge, as to whether you are afflicted with tapeworm or not. No charge for first lot of medicine.

Do not fail to visit Dr. Kellogg,

"The Wonder,"

After all others have failed to cure you.

The most obstinate diseases succumb to the Doctor's unlimited skill.

My diploma hangs on my office wall for inspection of patients. Patients will find the Doctor a gentleman, socially as well as professionally.

OFFICE, PICO HOUSE.

Hours from 8 a. m. to 8 p. m. No business on Sunday. ja27 tf

Auction Sales,

By John C. Bell & Co.

BY ORDER OF

Bent & Rowan,

REAL ESTATE DEALERS,

That fine valuable business and residence property in the heart of the city, HOMES IN THE ORANGE GROVES,

Corner of San Pedro and Seventh Streets.

Real Estate Sale,

On Friday, Feb'y 6,

At 2 o'clock, on the premises, I will sell 15 Valuable Business and Residence Lots, bounded as follows: By San Pedro, Seventh and Earl streets. Four fine valuable corner lots embraced in this tract. Every lot a fine, level lot. City water on the ground. Title perfect. Terms of this sale one-half cash, balance, WITHOUT INTEREST, in six months.

NOTE—This property is in the heart of the city—the oldest and world-renowned Wolfskill orange grove on its southeast corner. Sabichi's elegant and well-known grove on another, and the orange grove as advertised above forms the other. Please bear in mind that you have not got to wait a life time to plant and grow trees. Place your cottage or house and you are surrounded with the choicest of orange, lemon, apple, peach and others—all fine, large, thrifty trees. The contemplated iron bridge crosses the river at Seventh street, and connects with Boyle Heights. A horse railroad is run from the new depot through one of the main streets, down Seventh to Boyle Heights. The Santa Monica railroad runs in front of this property. This property is about on a level with Main street; graded; about five minutes ride to Postoffice or City Hall; a fac-simile of the elegant Child's property in soil and quality of fruit—about seven blocks nearer the City Hall and Postoffice. For further particulars enquire of

Bent & Rowan,

Or of *JOHN C. BELL, Auctioneer.*

CONSUMPTION.

The early symptoms of this disease are a sense of weariness upon little exertion, and disposition to remain passive and idle; a peculiar sensitiveness of the effects of cold, and a shortness of breath upon moving quickly or ascending a hill or stairs, a slight hacking cough with or without expectoration, flying pains throughout the chest or back or under the shoulder-blades; the symptoms are worse towards or during the night; slight fever in the afternoon, cold feet and hands, and in many cases the lividity of the lips and roots of the finger nails. The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectoration of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness, and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucus from the lungs. Heretofore the treatment of consumption has been very unsatisfactory, both to physicians and their patients, but luckily, since the discovery of the Aerean system of practice, a few years ago, thousands of cases have been completely cured, where, had it not been for this system of practice, utter failure to combat the evils of the disease would have continued up to the present time. The system of Medicated Inhalation is the only means by which these diseases can be cured. All ready to start up; are enabled to dissolve the hardened mucus in the lungs, ease the cough, facilitate expectoration, contract and heal ulcers and cavities after all hope of cure by ordinary methods is passed. CONSULTATION FREE. Those who desire to consult with me in regard to their cases had better call personally for an examination, but if impossible to do so, may write for a list of Questions and Medical Treatise. Address M. HILTON WILLIAMS, M. D., 275 North Main street, Los Angeles, Cal. Office hours from 10 a. m. to 4 p. m.; Sundays from 3 to 4 p. m. Professional visits before and after office hours. ja19 d&w

HALLEY'S BUREAU.

Not Insane, But Simply Crazy—A Lunatic's Murderous and Wholesale Attempts.

There was something of a circus, with side-show attachments, around the corner of Spring and Third streets, yesterday forenoon. At the southeast angle of these streets stands the American Exchange, a ding-house, kept by George Weiss and family, a two-story building with a basement bar-room. For several months there has been staying at this establishment—with more or less regularity—an Irishman named Michael Halley. The family speak of him as a good lodger, quiet and not addicted to drink. For a week or ten days Halley has been boarding "up on the hill," but on Saturday last he showed up at the American Exchange, as if he had not been away at all. His actions were noted by the family at the time as a little "off," but there was no suspicion in their minds that his wits were wandering. On Sunday, however, he was arrested, and on Monday examined as to his sanity by a commission composed of Drs. Lathrop, Beach and Wise, who pronounced him fully sane. He was accordingly dismissed, and thereupon posted back incontinently to the office of the Chief of Police to recover his revolver, of which he was relieved upon arrest. With this in his pocket he meandered back to the American Exchange about 10 o'clock Wednesday morning, and ate dinner there peaceably. In the evening he paid no attention to one of the Weiss girls who called him in to supper, and impressed her as being melancholy. He kept up a continuous talking in his room during the night; and coming down to breakfast at 6:30 covered with soot from the chimney, said that "vigilantes were after him all night, up on the roof, and didn't go away until 5 o'clock this morning." One of the daughters offered to bring him soap to erase the grime from his hands and face, that he might go to work clean; but he replied, "No, my work is done. I'm going up above." "Upstairs to your room?" asked the daughter. "No, up in the sweet bye-and-bye! They are after me all the time, and I shall swing sure. I've got just as low as I can get, and now my time has come!"

Soon after, he went down to the bar beneath the house, and passed his time in alternately sinking upon a chair or pacing the room and shaking his fists. Mr. Murphy, a boarder, entered and Halley drew his revolver—a short 32-caliber—put it to the man's stomach and pulled. Fortunately, however, the trigger was out of whack and wouldn't connect. Fearing for the result of such antics, Mr. Weiss went for a policeman and soon came back with Officer Roberts, who found Halley in the dining-room. The lunatic declined to lock arms with the officer, but assented readily to accompanying him upon the horse-cars. He went along all right until the officer stepped up to drop the fares in the box, when he arose and rapidly removed his presence thence, returning to the vicinity of his previous pranks, dodging the officer. Then Mr. Weiss telephoned from the brewery for more help, while Halley paraded about the New York saloon corner, flourishing his pop and sometimes aiming it at the school children on Third street, and other persons. Captain Gowen and Officer Keary responded to the call, and as they drew near Halley grew frantic. Jumping out into the middle of Spring street he tore off his hat, coat and vest, flung them down and danced upon them, yelling, howling and brandishing his pistol, with which he threatened to disseminate the brains of any who came near him. The officer manœuvred around a bit, and finally dashed in on him from each side. He fought like a cat, and tried to let his gun go at the officers, but again the weapon refused to explode. All three combatants went down in esthetic confusion, and in the fall Captain Gowen's revolver was accidentally discharged, but no one was hit. Halley was conducted to the jail with considerable difficulty, and now lies there. He will in all probability receive lodgings at Stockton soon. He is 27 or 28 years of age, single, and works as a day laborer, his last employment having been grading for a lady in the western end of the city. A dozen or fifteen persons had to face the business end of his revolver during the progress of his entertainment, and there is considerable relief in that part of the town over his detention.

Dr. L. W. French, in a communication published in yesterday's Herald, certifies to the correctness of the so-called interview, or interviews, between himself and a reporter of this paper, which appeared in Wednesday's TIMES. He fully admits that he stated that "Miss" Sanchez had proven herself an innocent person, and by inference gives the public to understand that he considers her such, although the crimes of this notorious woman have occupied a good share of the time of the police courts for the past six months. The existence of houses of prostitution on Los Angeles street is also a fact which, to be demonstrated, needs no further "showing around" than to pass through the street by daylight; and when Dr. French, who has been a member of the Council for over a year, professed himself ignorant of the open violations of the law in this quarter of the city, it was suggested to him that as he is holding a public office, it might be well for him to become better informed before condemning an officer for trying to do his duty. But the doctor, while he admits the minor points, loses his temper on one feature of the case, which is of overwhelming importance—the question whether he was walking or running when he piteously implored that nothing be said in the paper concerning his extraordinary views. As a matter of fact the TIMES did not charge him with walking, running or creeping on all fours, but merely said he was in "close pursuit and out of breath," which is the truth. The difference, you see, doctor, is material. While the doctor may continue to assert in the choice and dignified language used by him in the Herald, that the reporter is an "*infernal liar*," it is, presumably, to be understood that the doctor himself claims to be nothing more than a plain, straight, earthy one, without frills, furbelows, fire or brimstone. "Let it be recorded."

Where's the Whipping-Post?

The corner of Los Angeles and Requena streets was disgraced last night by a brutal case of wife-beating. About 7:15 o'clock passers saw a well dressed, rather good-looking man assaulting a small woman with fist and boot, punishing her unmercifully. No one seemed to interfere until a workingman named Edward Doherty—not willing to get into a scrap, but equally unwilling to see a woman beaten—rushed off and found Officer Grubbs, who promptly arrested the fellow upon Doherty's information. The man was taken before Captain Gowen, where a charge of assault and battery was slated against him. His name is W. L. Rogers, and he used to live in Santa Monica. His victim, Emma Rogers, stated that she was the fellow's wife, but had not lived with him for two years. She was allowed to depart. Rogers was very impudent and aggressive, and required considerable help to get back of the bars. His trial takes place at 9 this morning before Judge Austin.

Monte Vista.

The new colony lands at Monte Vista are going off like hot cakes. The tract has only been on the market since Tuesday, and there have been four or five lots sold already. A large number of people are inquiring, and a company, mostly eastern people, will go up next week to look, with a view to purchasing. The managers will donate a choice lot in the town site at the beautiful park of live oaks on this tract, to any one who will start a good boarding house and hotel there at once. Who will be first for this prize?

A Meteoric Flash.

An extremely brilliant meteor was noted in its hot-footed skip across space at 5:30 Wednesday evening. A witness describes it as looking "big as a man's fist, and with a tail about two yards long." The course of the celestial tramp was from the southwest to the northeast. It came a little too early to be seen at its best—doubtless trying to "meteor when the sun goes down," but couldn't quite comet.

AN IMPORTANT RUMOR.

Reported Sale of the S. C. V. R. R. Franchise to the A. and P. Company.

A rumor was current on the streets yesterday that on Tuesday the franchise and all the equipments of the Los Angeles and San Gabriel Valley Railroad were sold to the Atlantic and Pacific Railroad Company. Two of the officers of the company and its attorney were interviewed on the subject, but all were non-committal, and refused to say whether or not anything had been done. A gentleman, who arrived in this city yesterday from the east, stated positively that the transfer had taken place, and, if so, probably the full facts will be obtained to-day or to-morrow.

A GOLD FIND.

San Fernando the Scene of the Discovery.

A correspondent at San Fernando sends to the TIMES the following "good item:"

Quite a discovery of gold has been made within a few days near this place. The location is within four or five hundred yards of Maclay Station, which is three miles south of San Fernando. The range of low hills where the mine is located resembles the famous Silver King mine in Arizona. The ledge has been traced about half a mile. The vein is from four inches to a foot wide, and assays from $250 to $309 per ton. There is a great excitement over the discovery, and the Senator says he will open the mine immediately, which can be done for a mere trifle. I send you per express to-day a specimen of the discovery to show you that we have got the business. Yours truly, "X."

The Eagle Corps, the Governor and Col. Hewitt.

Major W. H. H. Russell, of the Eagle Corps, writes to the TIMES a communication, whose substance is, briefly, that the corps never adopted resolutions indorsing the appointment of Col. Hewitt as commander of the brigade, or referring to him at all; that he (Major R.) merely prepared a petition to the Governor asking the appointment of Col. Hewitt, and had secured many influential signers, regardless of politics, and the appointment was made; that later, understanding that Senator Del Valle was moving to prevent the appointee's confirmation by the Senate, the Major wrote personal letters (no more) to Assemblymen Banbury, Hazard and Edwards, asking them to try and secure favorable action by the Senate; and that there was not the remotest intention of interfering with the Governor or telling that official his business. The Major says he knows his own duty as a member of the National Guard too well for that, and thinks that our Sacramento correspondent was misled.

Y. M. C. A. Lecture.

Rev. M. N. Cornelius, of Altoona, Pa., will deliver the second lecture in the course to-night, beginning at 8 o'clock. Subject, "Those Neighbors of Ours." Mr. Cornelius is an eloquent speaker. The eastern press speaks of this lecture in the highest terms. It is full of wit and common sense. An admission of 25 cents will be charged.

Electricity and Magnetism the New Means of Cure.

Dr. E. Robbins, the celebrated Australian Electro-Magnetic Healer, Larronde Block, corner First and Spring streets, entrance on First street, after several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver and two years in this city, has decided to permanently locate here, where he has performed so many wonderful cures without the aid of medicine. His rooms are crowded daily with patients anxious to get the benefit of his power over so-called incurable diseases. Dr. Robbins is patronized by many of our leading citizens. He also diagnoses diseases without explanation from the patients, free of charge, and has fitted up the Institute at considerable expense with Dr. Hoffman & Palmer's celebrated electro-therapeutic bath, which is pronounced by eminent physicians to be the greatest discovery in medical science of modern times; also other medicated baths, with the latest improvements in electrical inst
